WHO WE ARE

Founded in 2003 in Dubai, RUUD Lighting Arabia was established to serve the lighting industry across the MENA region. We are a dedicated team of lighting professionals with extensive experience and are pioneers in the adoption of LED technology for outdoor Infrastructure applications. For nearly two decades, RUUD Lighting Arabia has been providing innovative and reliable lighting solutions to consultants, contractors, and end users throughout the MENA region and beyond.

With over 2,000,000 LED outdoor lighting units supplied—including some of the earliest LED infrastructure installations in the Middle East—the company has consistently demonstrated Leadership and Proven Performance in LED-based illumination within the region's demanding environmental conditions.

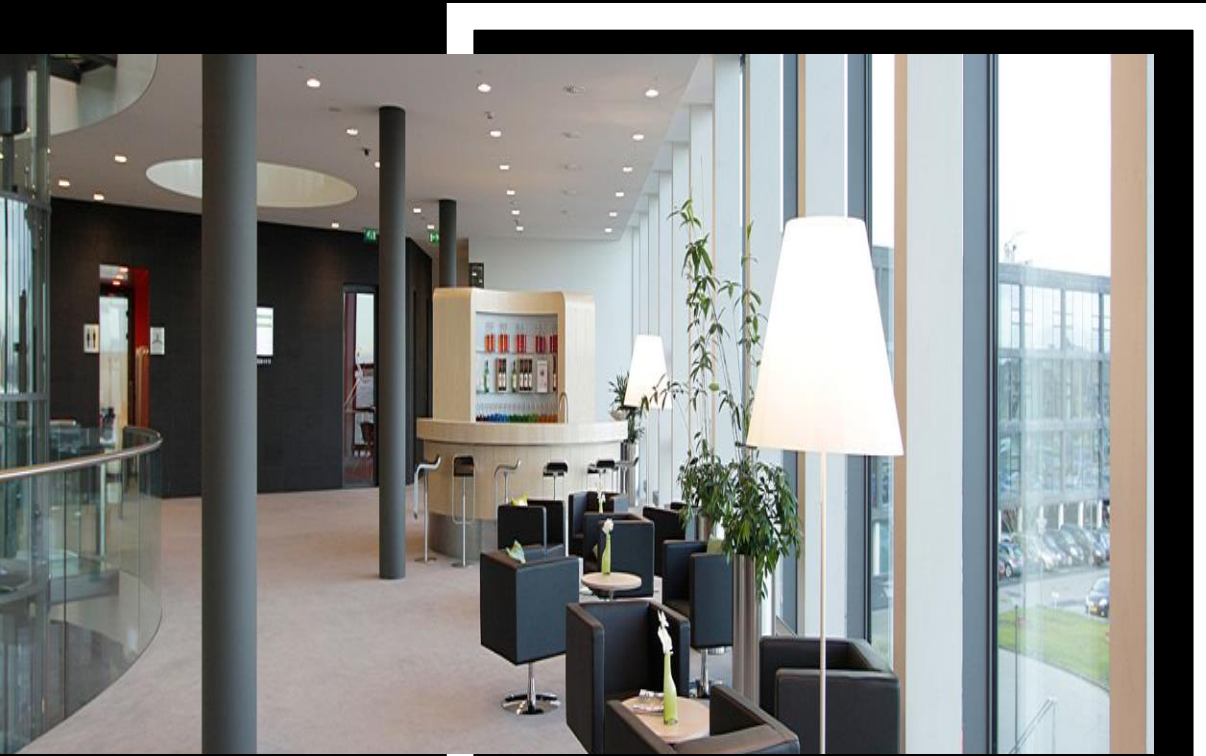

Our continuous focus on innovation and design excellence has led to significant advancements in luminaire engineering, smart lighting integration, and human-centric illumination. These technologies offer limitless possibilities for well-being, energy efficiency, and ease of installation, while maintaining the simplicity and reliability that define our approach.

In 2020, RUUD Lighting Arabia introduced a new generation of LED products for both indoor and outdoor applications. With class-leading efficacy, efficient optics, and superior thermal management, these products embody RUUD's enduring principles of quality, performance, and value, continuing our legacy of excellence in lighting innovation.

Engineered Lighting Solutions

RUUD Lighting Arabia delivers design-driven lighting solutions tailored to the specific requirements of each luminaire application. Our solutions are engineered for optimal optical performance, precise color temperatures, and comfortable illumination, ensuring that every space is efficiently lit. By focusing on intelligent design, we help clients reduce both capital and operational costs, while maintaining full compliance with prevailing lighting codes and environmental standards. Our commitment to every project is to provide energy efficient solutions, timely execution, and high-quality products, ensuring complete client satisfaction. Our aftersales support and services are widely recognized and appreciated by the customers we serve across the region.

The Team

RUUD Lighting Arabia's success is powered by a highly qualified team of pre-sales advisors, lighting designers, product engineers, quality and conformity specialists, and operational personnel. They support clients from concept through to project completion, ensuring every solution is perfectly executed. A strategically placed regional distribution network enables superior after-sales support and service, delivering prompt and reliable assistance both locally and regionally.

MANUFACTURING PROCESS

All manufacturing is carried out in state-of-the-art, ISO-certified facilities, ensuring full compliance with Quality, Environmental, and Occupational Health & Safety standards. Our products are proudly manufactured across North America, Europe, and Asia.

Through unwavering consistency, a commitment to exceeding expectations, and strict adherence to the highest standards of service and reliability, we have earned the confidence of our customers and fostered a strong bond of trust between the company, its employees, and those we serve.

OUR CUSTOMERS

Over the years, RUUD Lighting Arabia has proudly served a diverse range of institutions, both large and small.

Our unwavering commitment to customer satisfaction through innovative lighting solutions, superior product quality, and exceptional service—has earned us the trust and loyalty of our clients across the region.

We believe in building long-term partnerships, working closely with our customers to bring their project illumination goals to life with creativity, precision, and reliability. Our involvement does not end with the delivery of a product; it continues through ongoing support, collaboration, and a shared vision for success.

At RUUD Lighting Arabia, our customers are at the heart of everything we do. They are not only the reason for our growth but the very reason for our existence. Their ambitions fuel our innovation, their satisfaction drives our performance, and their trust empowers us to keep illuminating the path toward a brighter, more sustainable future.

Together, we light the way forward.
